MY FAVORITE COLOR IS A RAINBOW

words & music by Tim Burns

I love the red ripe apples and grass so green
Orange, lemon and tangerine,
The yellow sun in a sky of blue
The color of me, the color of you

Purple plums and pink sunsets
Roses, daisies and violets,
All the pretty flowers that grow
That's why my favorite color is a rainbow

Oranges make me happy, blue skies never let me down
And I love the way the leaves turn
from green to orange to red to brown
The clothes you wear, the skin you're in,
The eyes that you see through
So many different colors,
It's almost like there's a rainbow in you

I love the red ripe apples and grass so green
Orange, lemon and tangerine,
The yellow sun in a sky of blue
The color of me, the color of you

Purple plums and pink sunsets
Roses, daisies and violets,
All the pretty flowers that grow
That's why my favorite color is a rainbow
Oh..yup..it's a, a rainbow..oh
