## TO THE MOON

words & music by Tim Burns

To the moon, we're gonna take a trip  
To the moon, in our rocket ship  
On the way we'll sing our favorite tune, to the moon

Oh the moon, is hanging up in space  
Oh the moon, it has a friendly face  
I sure hope that we get there soon, to the moon

On the moon there's way less gravity  
So you weigh way less than on earth you see  
And when you reach the Sea of Tranquility you can float  
And float... And flooooooat,

On the moon, we'll be like Astronauts  
On the moon we'll plant flags in our favorite spots  
We'll moonwalk in the moonlight then sleep on in till noon...  
So I guess I'll see you later from a crater on the moon  
4, 3, 2, 1, Blast off!
